

Collages.net

Collages.net has been with NILMDTS supporting our photographer volunteers from the beginning. The benefits of this partnership are numerous -

- The free Collages.net account provides families with a password protected way to view the pictures of their infant on a specially designed NILMDTS template
- The slideshow is "live" indefinitely (or until the photographer discontinues it) so that families can view it as many times as they wish and can share it with other family members by providing them with their login information.
- In conjunction with a free Collages.net account, NILMDTS photographers receive full Collages.net Customer Service support to get all set up, to answer any questions, and to always be there for any questions that photographers may have.
- Our partners at Collages.net are generously providing NILMDTS photographers with a free account in which to post NILMDTS images. This process allows NILMDTS photographers to upload their session images to Collages.net's secure website and offer families the ability to view their pictures through online slideshows.

All NILMDTS photographers can get started by calling Collages.net at (877) 638-7468 and identifying themselves as a "NILMDTS photographer" or by visiting <http://www.collages.net/nilmdts>
