

REMEMBRANCE PHOTOGRAPHY

Providing the gift of remembrance portraits to parents experiencing the death of a baby.

Dear Parent,

NILMDTS would like to offer our sincerest sympathy during this difficult time. The time you spend with your baby is special, no matter the circumstances. While it might not naturally occur to you that taking photographs would be helpful, we strongly encourage you to capture your moments together.

A NILMDTS volunteer photographer, if available, will only be in your room for a short period of time to capture black and white portraits. Your photos will be delivered via an online gallery that you can choose to access whenever you feel ready. The heirloom images NILMDTS will provide, along with the snapshots you collect, will be some of the only tangible memories you have of your child. Should a volunteer photographer be unavailable, we have professional retouching services for the photographs taken by you, your family, or your caregiver. More information can be found below. Regardless of whether a photographer is available, we highly recommend taking your own photos as well. You can never have too many.

As many of us have walked the same path that you are now beginning, we encourage you to do what is best for you. The memories created during this time will be what helps sustain you throughout your healing journey.

Deepest Sympathy,
Now I Lay Me Down to Sleep
